There are many services that are offered by Career Services. Careers is a subject that should be on most students minds but they want instant gratification and may not understand the timeline it takes to cultivate a successful path. Discover why career planning tools are valuable to everyone who interacts with students. This program will provide resources, tips and information that will help you be a good ambassador for Career Services and assist you with responding to the many questions you may receive while helping students enter the world of work.

Cultivating the skills in students that are necessary to succeed academically in college is achieved through learning support services provided by the Student Success Centers. The SSC-Hardman and SSC-Zuhl are centralized university-wide academic support service departments where students can participate in learning through a variety of study skill enhancement strategies that are applicable in all aspects of their educational career. The variety of innovative services offered by the Student Success Centers guide and assist students through their educational journey that in turn promotes a positive academic experience for NMSU students.

January 30, 2013
2 - 3:30pm
O’Donnell Hall
Room 232
